

## 1. PRODUCT IDENTIFICATION

Product code	Product name	Photo	Colour housing	Colour ink
P0519-PL519-	Detectable pen ONE piece without clip			
P0520-PL520-	Detectable pen ONE piece with clip			
PN520-	Detectable pen ONE piece with clip with serial number			
P0379-PL379-	Detectable pen LIGHT			
P0389-PL389-	Detectable pen LIGHT PLUS			
P0406-PL406-	Detectable pen STANDARD without clip			
P0405-PL405-	Detectable pen STANDARD with clip			
PN405-	Detectable pen STANDARD with clip with serial number			
P0577-PL577-	Detectable pen HEAVY with clip (for difficult conditions)			
PN577-	Detectable pen HEAVY with clip (for difficult conditions) with serial number			
P2047-	Detectable pen HEAVY without clip (for difficult conditions)			

### Meets requirements of BRC (4.9.6.2)

Our pens are:

- designed without small parts,
- detectable by foreign body detection equipment.

## 2. OTHER INFORMATION

a) **Material:** Polypropylene with of the magnetic additive

b) **Used**

Product code	Product name	Length of writing [m]	Range temp	Other information
P0379 / P0389	Detectable LIGHT pen	1300	From +10 to +25°C	Keep nibs away from any contact surface other than paper, it is advised not to carry exposed pen tips in work clothes pockets, it may get dirty clothes
P0519/ P0520	Detectable ONE pen	1300		
P0405/ P0406	Detectable STANDARD pen	3000	From 0 to +45°C	
P0577 P2047	Detectable Heavy pen	6000	From -20 to +60°C	Recommended for use for difficult conditions (reduced temperature, greasy surfaces)

c) **Storage**

Store in cool and dry conditions, below 50 ° C.

d) **Cleaning and maintenance**

Not applicable

e) **Risk**

Not applicable

### 3. DETECTABILITY

PROHACCP Company informs that our metal detectable products have magnetic characteristics and can be detected by standard metal detection systems. However due to settings of different metal detection systems, PROHACCP cannot guarantee that our products will be detected by your metal detectors. Therefore we cannot take responsibility for any non-detection of our products or their parts. Detectability of our products depends on metal detector settings, and type of food products produced (product composition, size, humidity etc). In order to make sure that our metal detectable products will be detected we strongly recommend that you test it on your metal detectors before you use it.

Kielce, January 22, 2025
